- Built-in Constant Current LED Driver
- Dimmable
- Multiple lengths, wattages, and color temps available
- Moisture resistant

## COMMON TECHNICAL DATA

|                       |                          |
|-----------------------|--------------------------|
| Color Temperature     | 3000K - 6000K            |
| Beam Angle            | 120°                     |
| CRI                   | 80                       |
| Operation Temperature | -30°C – 40°C             |
| Lumen Efficiency      | More than 110 LPW        |
| Input Voltage         | 100-277VAC               |
| Frequency             | 50/60Hz                  |
| Rated Life            | 50,000 Hours             |
| Power Factor          | More than 0.99           |
| LED Type              | SMT 3030 or 2835         |
| Housing               | Plastic & Brushed Nickel |

## WARRANTY

This product has a warranty for a period of 5 years from the date of purchase. The warranty is invalid in the case of improper installation, tampering, or removal of the Q.C. date label. Installation in an improper working environment or installation not according to the current edition of the National Electric Code also invalidates the warranty. Should this product fail during the warranty period, it will be replaced free of charge, subject to correct installation and return of the faulty unit. JL Lighting does not accept responsibility for any installation costs associated with the replacement of this product. This warranty is in addition to the statutory rights in the country of purchase. JL Lighting reserves the right to alter specifications without prior notice.

|--------------|---------|---------------|--------------------|
| Product Code | Wattage | CCT           | Length             |

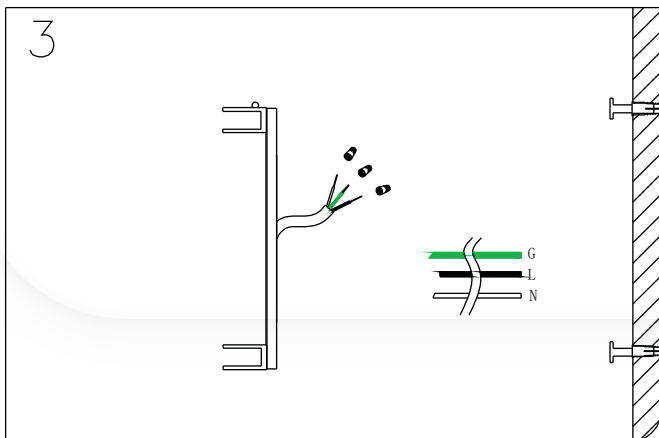

## INSTALLATION INSTRUCTIONS

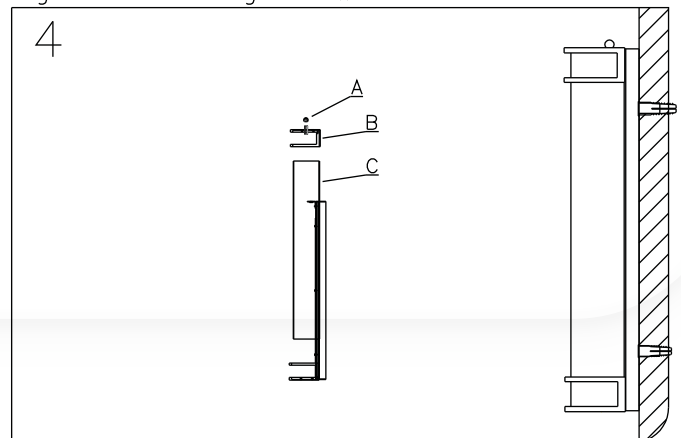

1. Measure the distance of installation holes as picture, loose the part A, remove part B and take out part C.

2. Drill two holes according step 1 distance on the wall and install two plastic expansion screws which are in the accessory bag. Tighten accessory screws and leave enough high for installing the wall luminaire.

3. Connect the AC power cable, Black joins to L, White join to N and the green/yellow cable to grounding.

4. Match the base holes with installation screws and fix the fixture on the wall, put part C in the track, assemble part B and tighten part A.
